

About Orchard Gardens Assisted Living

Our mission is to offer the kind of retirement living where life matters, vitality in daily living is offered, and peace of mind is a reality for every resident.

Established in 2004, our affordable assisted living community is owned and managed by [Douglas County Housing Authority](#), a non-profit organization. We are home to 56 spacious, comfortable apartments and are situated on 16 tranquil acres in Valley, Nebraska, just minutes from both Omaha and Fremont. Residents in our community enjoy a wide range of amenities and services. Our comfortable environment offers a host of activities, both on-site events and planned outings, as well as places to nourish mind, body, and spirit. A caring staff provides round-the-clock attention and makes our residents' safety and security its top priority. We are supported and involved in our community which gives our residents a sense of belonging – a place to call home.
